

# Family Travel Countdown Calendar

Make a chain of loops counting down until your next vacation. Build excitement by tearing off a loop each day.

vacation  
name here

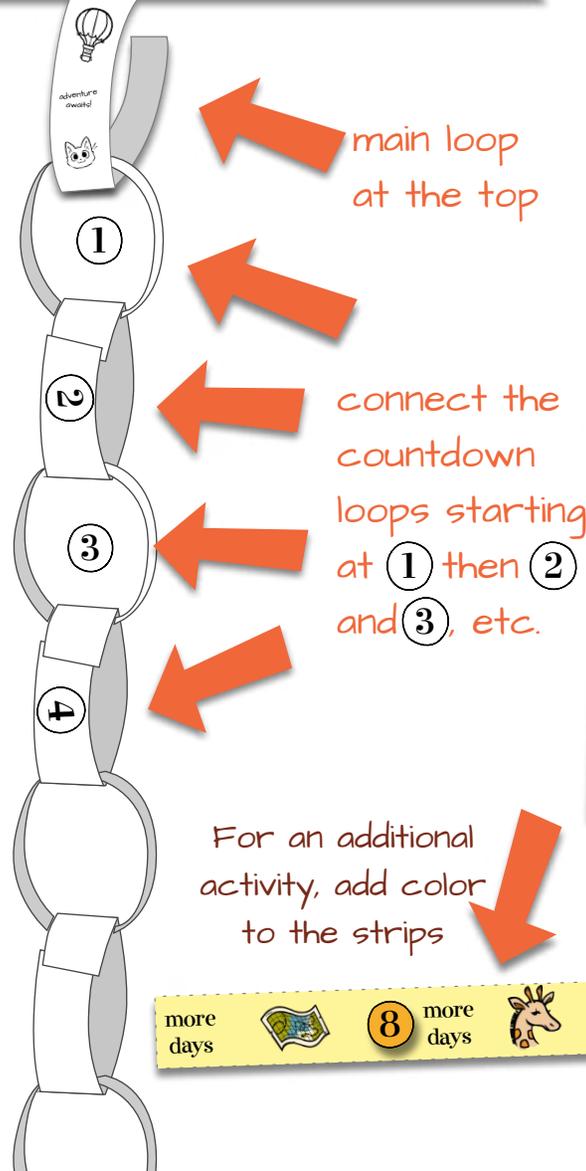

Safely cut out the countdown strips and main T-shaped strip (where you write the name of your trip).

Write the name of your vacation at the top.

Make a main loop at the top.

Make a chain of loops hooking ① to the main loop. Then loop ② into ①. Then loop and tape ③ onto ②. Keep going until you reach ⑫.

You can also add as many extra days as you want with the blank countdown loops.

Here is our Grand Canyon countdown on the side of our refrigerator. Adventure Awaits!

Cut out along the dotted lines, make loops and link together, starting with 1 more day through 12 days.

write the name of your trip, holiday or vacation above

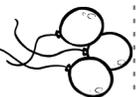

more days!		1	more days!		1
more days		2	more days	can't wait!	2
more days		3	more days		3
more days		4	more days		4
more days	only	5	more days	only	5
more days		6	more days		6
	adventure awaits!		main loop		
more days		7	more days	one week!	7
more days		8	more days		8
more days		9	more days		9
more days		10	more days	so much fun!	10
more days		11	more days		11
more days		12	more days		12
tape loop to here					

Cut out along the dotted lines, write in number of days, make loops and link together!

Use these blank loops to add up to 13 more days of countdown to your countdown calendar!

more days!		<input type="text"/>	more days!		<input type="text"/>
